

First Grade Learning Overview

Introduction

In the first grade, students have embarked on an exciting journey of exploration and learning about the world around them. This includes understanding the parts of their face, their family, and their community. Through engaging activities and the introduction of new vocabulary words, students have developed a deeper connection to these familiar aspects of their lives.

Parts of the Face

One of the foundational topics covered in class was learning about the parts of the face. Students engaged in hands-on activities, such as creating self-portraits. During this creative process, they labeled each part of their face in Spanish, enhancing both their artistic skills and language acquisition. This exercise not only reinforced their understanding of facial features but also introduced them to new Spanish vocabulary, making the learning process both fun and educational.

Understanding Family

Students also delved into the concept of family. Through drawing activities, they depicted their family members and labeled each person in Spanish. This activity was designed to help them appreciate the diversity and importance of family while learning to express these ideas in a new language. It also encouraged students to share about their own families, fostering a sense of community and belonging within the classroom.

Exploring the Community

Students drew maps of their community, highlighting important buildings and places, and labeled these in Spanish.

Key Community Vocabulary in Spanish:

- **Escuela** (School)
- **Parque** (Park)
- **Biblioteca** (Library)
- **Supermercado** (Supermarket)
- **Hospital** (Hospital)

Through these activities, first graders have gained valuable knowledge and skills that connect them more closely to their world. By integrating new vocabulary in Spanish, they have broadened their linguistic abilities while engaging in creative and meaningful exercises. These foundational lessons set the stage for future learning, encouraging curiosity and cultural awareness.
